index.html storyboard

Nikita Gontsarov | February 19, 2026

• 1. Main Node: Gontsarov Website
• **Title:** Main Navigation Hub
• **Address:** index.html
• **Description:** The primary entry point containing a Pinterest-style logo, site title, and an interactive control panel for toggling visibility and visual effects of site sections.

• 2. Home Page
• **Title:** Kodu (Home)
• **Address:** index.html
• **Description:** Displays the main welcome message and serves as the landing area for users to navigate to other specific topics or external links.

• 3. Topics & Resources
• **Title:** Teemad / Lingid
• **Address:** teemad.html
• **Description:** A dual-column layout showcasing a list of web development topics (HTML, CSS, Tables) and a collection of essential external developer resources.

• 4. Practical Works
• **Title:** Tehtud tööd
• **Address:** tood.html
• **Description:** A portfolio section designed to showcase completed tasks and assignments throughout the web development course.

• 5. Media Content
• **Title:** Meedia
• **Address:** meedia.html
• **Description:** A dedicated page for multimedia elements, including images and videos used within the project framework.

6. WordPress Integration
• **Title:** WP (WordPress)
• **Address:** /wp/
• **Description:** An external link or sub-directory leading to a WordPress-managed environment for blogging or content management exercises.

7. Interactive JS Block
• **Title:** JavaScript Functionality
• **Address:** teemad.html
• **Description:** A specific functional area on the page that uses JavaScript to calculate and display the current date and the countdown to the user's birthday.

8. Global Footer (New Block for Volume)
• **Title:** Site Footer
• **Address:** Global (all pages)
• **Description:** Contains copyright information, developer credits (Nikita Gontsarov), and quick contact links.
